- Click on Finish

Running Security Director's Gold

Either:
- Click on the Start button.
- Select Programs.
- Select Security Director's Gold program group.
- Select Security Director's Gold 32.

Or:
- Double click on the Security Director's Gold shortcut on the desktop.

SECURITY DIRECTOR′S GOLD SOFTWARE OPERATION

Security Directors Gold (SDG) is a version of Galaxy Gold software optimised for use by end users. The software will allow the user to view, print, copy, program and overwrite User Codes, Summer Time and Timer Control†. Users may also copy, view and print the Event Log (depending on their code attributes).

† Menu option 45 Timers, available only on Galaxy 8, 18, 60, 128, 500, 504 and 512 control panels.

Note: The Mimic Panel function is **not** available with Security Director's Gold software.

The operation procedure for all the SDG options are identical to that of Galaxy Gold, see the **Galaxy Gold User Manual**.
